PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented engineering graduate with hands-on experience building full-stack and frontend web applications using React, FastAPI, Python, and modern web technologies. Strong understanding of API integration, clean UI development, and backend fundamentals. Actively seeking opportunities to contribute to real-world software development projects and deliver impactful solutions.

EDUCATION

Bachelor of Technology, *Malla Reddy Engineering College* 2021 – 2025 | Hyderabad, India
Computer Science and Engineering (Cyber Security)

PROFESSIONAL EXPERIENCE

Omyra Technologies Pvt. Ltd., *Web Developer Intern* 10/2025 – 11/2025 | Hyderabad, India

- Assisted in developing and maintaining web applications using Python, React.js, JavaScript, HTML, and CSS.
- Worked on frontend components, API integrations, and UI enhancements to improve user experience and performance.
- Gained practical exposure to Git-based workflow, version control, and agile development processes.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Web Technologies: HTML, CSS

Frameworks & Libraries: React.js, Flask, FastAPI, RESTful APIs

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms

Database: MySQL

Developer Tools: GitHub, VS Code, MySQL Workbench

Cloud & Deployment: Vercel, Render

PROJECTS

SkyCast Weather, *Python, React.js, JavaScript, HTML, CSS, Weather API, GitHub, Vercel* 🌐

- Developed a responsive weather application that delivers real-time temperature, humidity, wind speed, and conditions using a public Weather API.
- Implemented key frontend components and API integrations while specifically suggesting and implementing UI optimizations to meet performance requirements.
- Deployed on Vercel with version control maintained on GitHub. <https://skycastweatherapp.vercel.app> 🌐

Dictionary Web Application, *Python, React.js, JavaScript, HTML, CSS, Free Dictionary API, Render* 🌐

- Built a full-stack dictionary platform to fetch and display definitions, and phonetics of English words.
- Created a FastAPI backend to handle requests and cleanly structure dictionary API responses.
- Utilized React.js to develop a modular architecture, creating reusable components to ensure design consistency and speed development.
- Deployed the complete app on Render for public accessibility. <https://dictionarywebapp.onrender.com> 🌐

CERTIFICATIONS

PYTHON (Basic) - HackerRank 🌐

SQL (Intermediate) - HackerRank 🌐

SQL and Relational Databases 101 - Cognitive Class (IBM) 🌐

WORKSHOPS & TRAINING

Deloitte Australia | Technology Job Simulation (via Forge) 🌐 07/2025

- Engaged in a hands-on technical simulation, applying development and coding skills to solve practical business problems for a simulated client.
- Authored a detailed technical proposal for the development of a data-driven dashboard, outlining project scope and requirements for a complex business scenario.
